

Create memorable custom wedding gobos with Apollo's Wedding Templates.

Personalize your wedding reception by displaying your name and wedding date in lights. Bring your wedding color into play by adding an Apollo Gel color.

Personalizing your custom gobo can be done in four easy steps.

Step 1. Select a layout (steel/glass initial and number)

Step 2. Select a font (using the font code)

Step 3. Select the details (names, dates, fixture, and quantity)

Step 4. Contact an Apollo dealer

Glass Custom Gobo

Black & White Glass Gobo

This example is from page 8.

Step 1. G1

Step 2. Edwardian Script ITC (EDWA)

Step 3. Sasha & Patrick 12.3.11

Steel Gobo

This example is from page 2.

Step 1. S4

Step 2. Marriage Script (MARR)

Step 3. Traci & Sam

Metal Custom Gobo

Glass Gobos vs. Steel Gobos

If intricate detail is important, Black and White Glass is your best option. Glass gobos project clear, crisp detailed photos, images, or logos with gray scale without "bridging". Steel gobos require "bridging" which connect the lines necessary to maintain the overall appearance and integrity of the image.

Steel Gobos Size Examples

Steel patterns not available for all lighting instruments. Size limitations required by small projectors exclude some availability. Consult an Apollo representative.

Metal Gobo Size BR Projected
