## Assembly instructions for Mall Street Sign

Thank you for buying this Mall Street Sign. Please take some time to read these instructions before you begin assembling.

This kit is milled in styrene plastic and is very easy to glue together using Plastruct Plastic Weld or similar glue products.

Take your time to identify all parts, lay them out and clean them for any burrs before gluing them together.

Parts overview, there are 2 of each part

Start by cutting the decals to fit, using the sign frame as a template. Then glue on the 2 layers of trim pieces as shown on the photo. Make both of the frames.

Glue the 2 basic sign pieces (0.08" thick) together, then glue on the frame pieces on each side.

Paint the sign the same colors as your strip mall buildings.

This sign fits the design of the Strip Mall backdrop kits #ML-001, #ML-002 and Office Depot kit #ML-003.

You can use the strip mall kits as stand-alone buildings or you can combine them to make a mall complex.
